Q3 What type of community events would you like to see more of in Town?

1	Historically related events and people of the Town	11/11/2025 9:38 AM

5	I would like East Granby to be preserved as a small town. People who do not live in East Granby are envious of the town and the residents. People move to East Granby to enjoy the safe community and great small schools. The current expansion plans will ruin the small town and create an influx of tax increases. Look at South Windsor. They expanded and had to build new schools. Tax increases and the only people that benefited from this are people that want to move to South Windsor, not the current residents. Make decisions that preserve the small town and for the current residents. East Granby is a 20 minute drive to Enfield, 25 minute drive to Canton shops, 10 minute drive to Simsbury center, 30 minutes to Holyoke Mall and 35-40 minutes, 35-40 minutes from West Farms Mall 25 minutes from Manchester shopping and 15-20 minutes from Hartford. People move to East Granby because they want the safe small town and good schools. If people wanted the amenities that come with a "thriving" town they would have moved to the locations posted outside of East Granby that offer the shopping, nightlife and convenience. They moved to East Granby to enjoy our safe community.	11/3/2025 12:26 PM
6	More options for adults to connect and meet other adults	11/3/2025 12:03 PM
7	Events that connect residents to the agricultural landscape and heritage of the town. The farmer's market is good, but I would also suggest a 'Open Farm day' perhaps coordinating with Granby, to highlight the agricultural and rural character of the region.	10/28/2025 10:08 AM
8	Granville, MA has a harvest fair, on the green at the center of town, where Route 189 meets Route 20. People put up booths to sell food, maple syrup, art, & other such things. Why not also in E Granby? Granby had a father/daughter dance, some years ago. It was successful. I wonder if the community center- where people vote- could, I don't know, have a dance for high school students? Maybe? Could we build a labyrinth, a maze of some sort, to walk, near the high school or other school- these have gone over well in some towns. All that is needed is a labyrinth pattern, and some rocks. More concerts! Maybe even dances!	10/27/2025 7:54 PM

I plan to work with them to protect 4 more trees. Now my backyard has a flower garden where I have been working to create an environment for pollinators (bees and butterflies). I am concerned about developments as the land in my back yard is precious. I want to find out how to get this land designated for pollinators and therefore can't be developed. Q20 Where should East Granby encourage more housing developments?

5	The entire Rte20 corridor	11/3/2025 7:36 PM
6	East Granby should not encourage more housing developments. Preserve the small town and prevent the need for unnecessary tax increases required for all the additional housing. Larger schools, full time fire department and larger police department are all the next steps following the housing expansion in the town. The town should run a cost study on other towns that just went through their expansions. A study should be conducted to determine the predicted tax increase on residents. East Granby does not need to "thrive" like some in the planning and zoning are saying. East Granby is a small and safe town with great schools. All decisions made to grow and expand East Granby come at a cost to the residents and the children. Expansion of the town and additional housing is not for the best interest of the towns residents.	11/3/2025 12:26 PM

Seymour Rd has residential housing and should NOT have any more development. Seymour Rd should be a DEAD END ROAD to keep trucks and others from SPEEDING through as a shortcut! 61	I grew up on Kennedy Road, played in most of those homes as they were being built. My dad built homes, was a class 3 plumber, and evaluated almost every structure as it was built. I live in Granby Village and I assert that this TOWNHOUSE structure is the best architectural design. It's efficient with space, but it's home. Construction is repetitive and less costly. Just build them on building lots.	8/15/2025 6:16 PM
